

# Short Vowel Roll and Read Games

These short vowel games make a quick, before reading activity and work well for 2-4 players (see 1 player idea below, too!).

PREP:

\*Print the game board of choice.

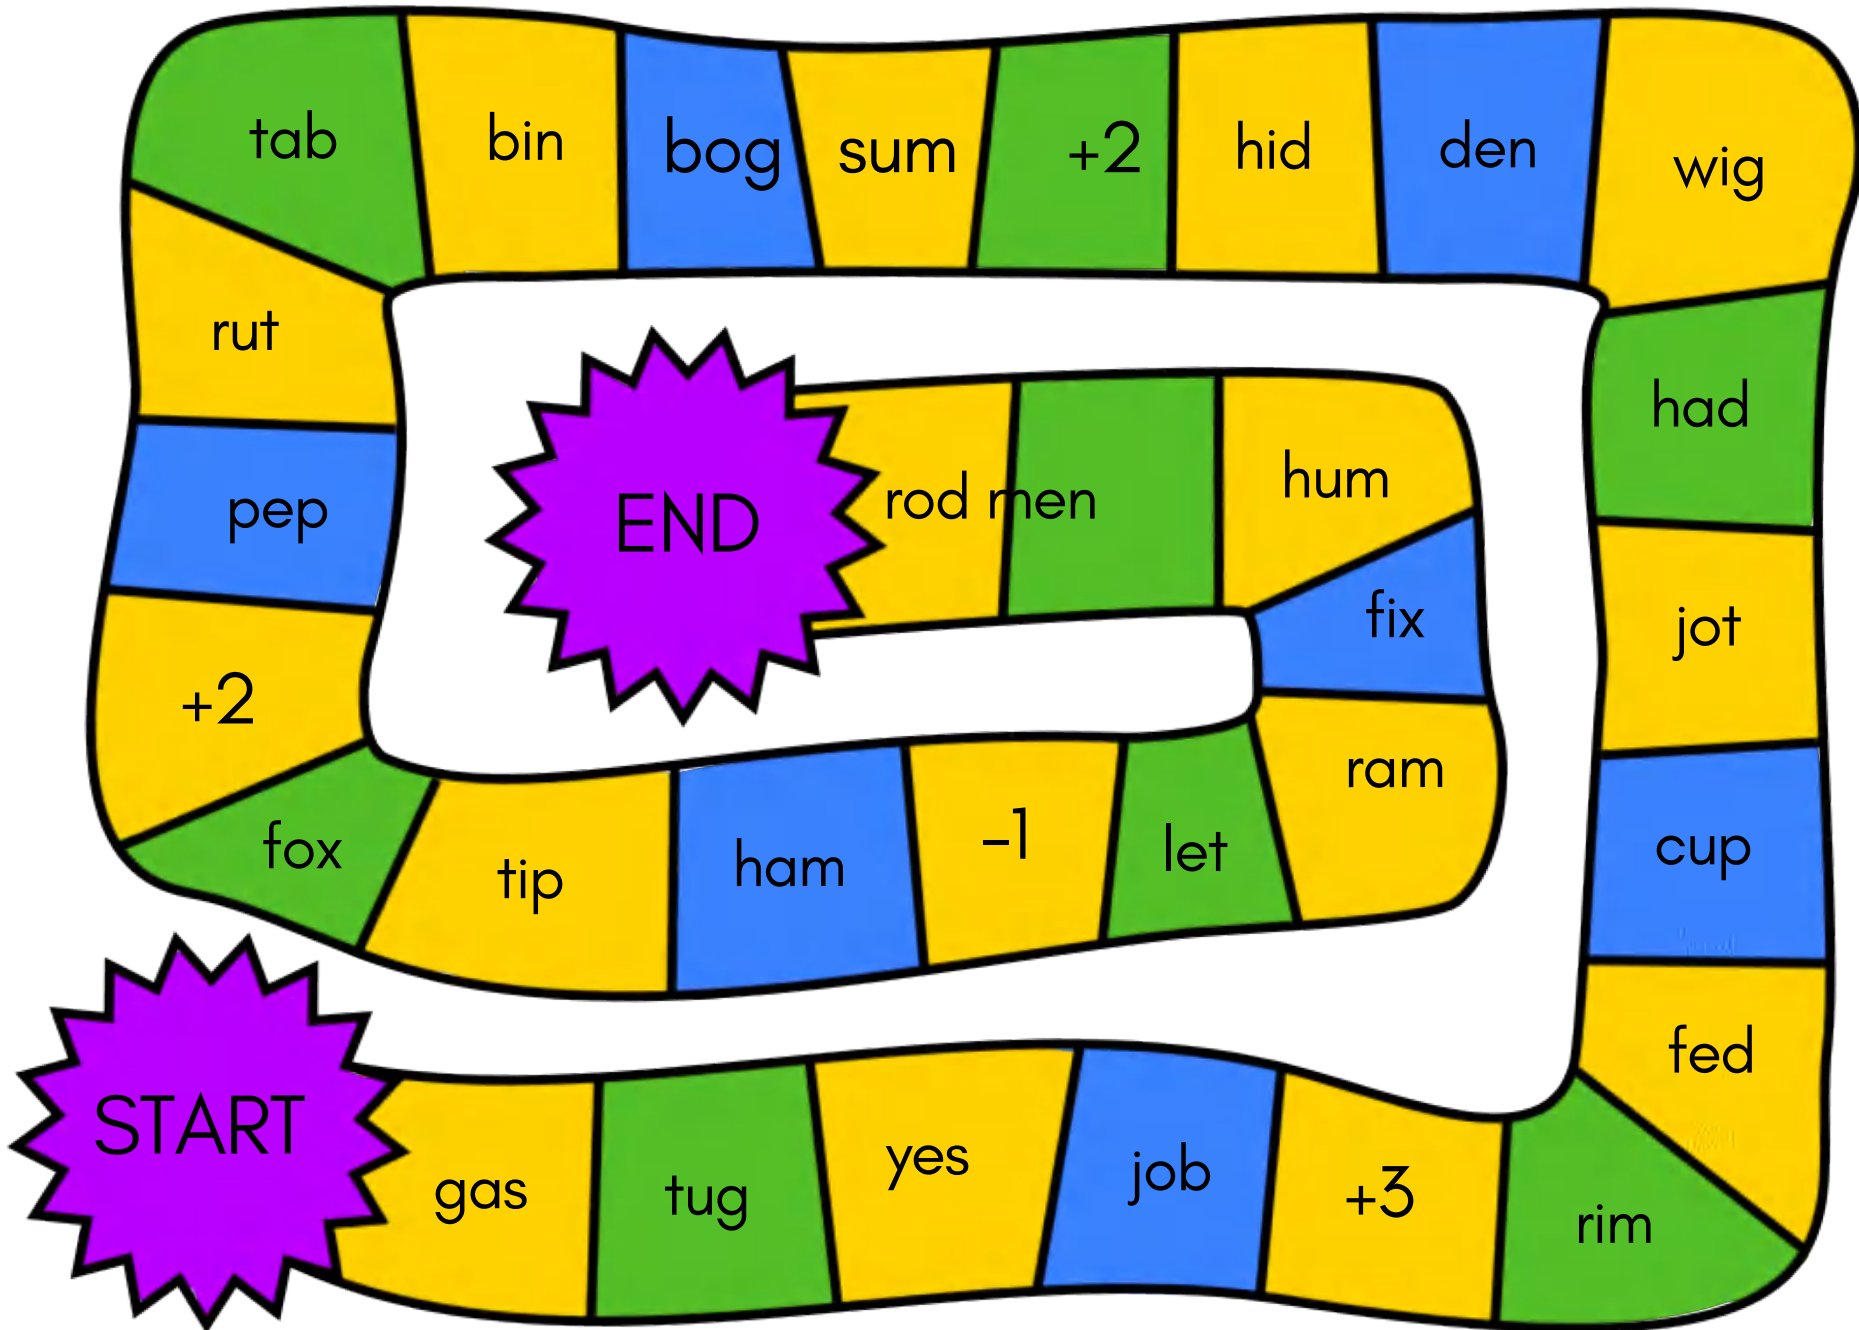

\*Find a die and small playing piece for each player. PLAY:

\*Simply roll a die, move your piece, then read the word you landed on.

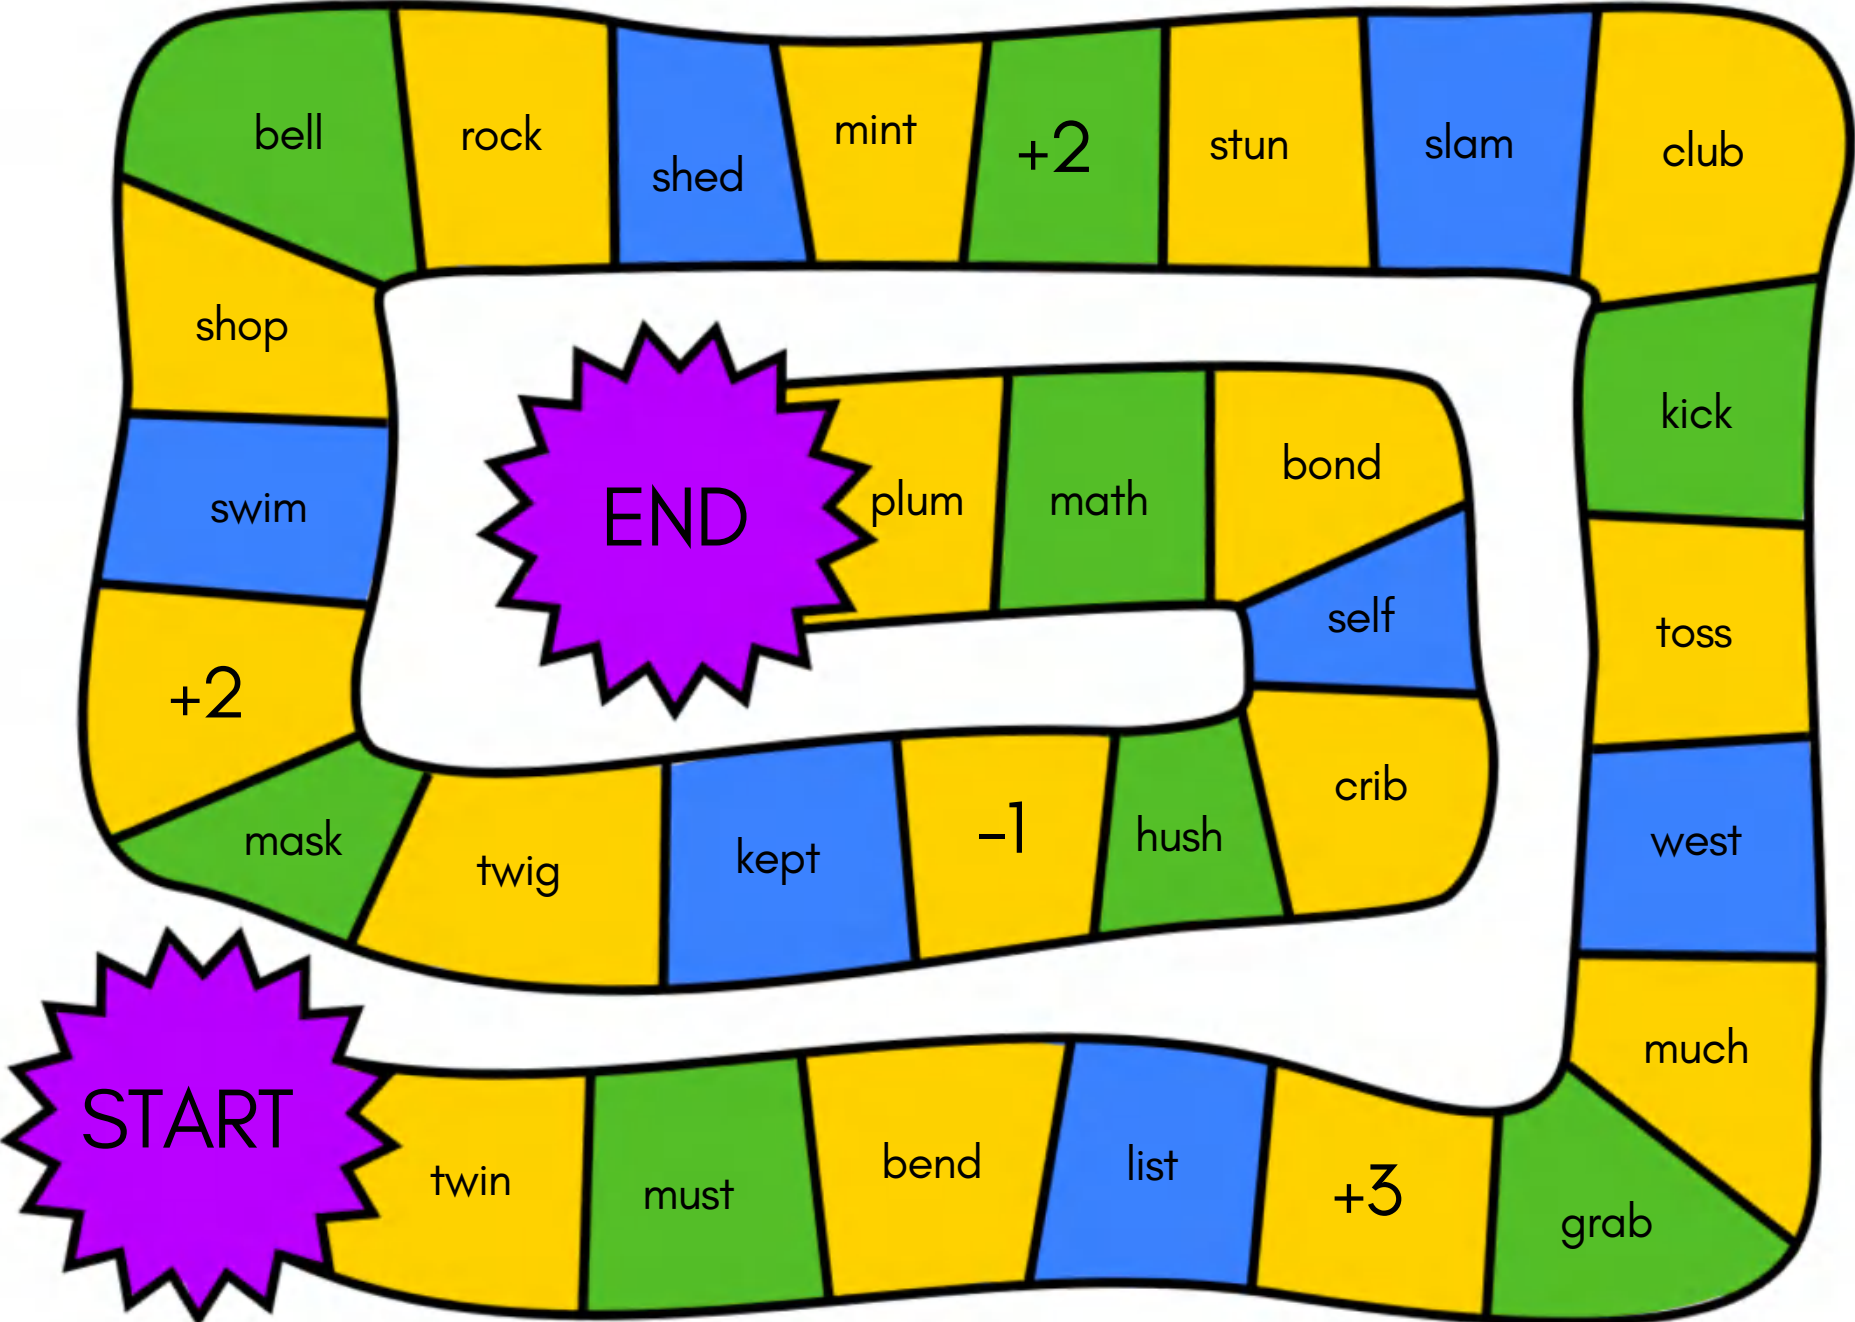

\*The player who gets to "END" first is the winner. \*\*Players can play competitively, only allowing the player to keep his space if he reads the word correctly. Or players can help each other if the word is read incorrectly.

\*1 student can also play by himself, racing two different colored playing pieces to the finish line.
