Word Problems

Name:.....

Date:.....

You need to solve two steps to answer each question. You might need to add or subtract.
Write your final answer in the box.

A jungle gym has **20** rungs. Half are broken. Workers fix **6** of them.

How many rungs are now okay?

There are **12** scooters. **5** kids take a scooter each. Then **2** return theirs.

How many scooters are free now?

The sandbox has **30** toys. **10** are taken out. Then **8** more are added.

How many toys are in the sandbox now?
