# TYPES OF LANDFORMS

Directions: Read and understand the descriptions per number. Rearrange the jumbled words to reveal the name of the landforms for each picture.

**MNUOTAIN**

1. High, rocky landforms, often with steep sides and peaks.

**PIALN**

2. Large, flat areas of land.

**PLTAEAU**

3. Large, flat areas of land that are higher than the surrounding land.

**VLLAEYS**

4. Low areas between hills or mountains, often formed by rivers or glaciers.

**HLILS**

5. Rounded, elevated landforms, smaller than mountains.

**VLOCANO**

6. Cone-shaped mountains or hills formed by erupted lava and ash.

**DSEERT**

7. Dry areas that receive extremely low amounts of rain.
