Word Problems

Name:.....

Date:.....

You need to solve two steps to answer each question. You might need to add or subtract.
Write your final answer in the box.

There are **40** party hats. **15** are used. **6**
new ones are added.

How many hats are left?

There were **30** cupcakes on the table. **8**
were eaten by guests, and **5** more were
added later.

How many cupcakes are there now?

Lucy received **10** gifts. She gave **3** to her
cousins and then got **4** more from friends.

How many gifts does Lucy have now?
