Word Problems

Name:.....

Date:.....

You need to solve two steps to answer each question. You might need to add or subtract. Write your final answer in the box.

There are **30** sandwiches. **12** are eaten,
and **6** more are made.

**How many sandwiches are there
now?**

The basket had **25** cookies. **8** were
eaten and **5** were added.

How many cookies are left?

There were **18** cups. **6** got knocked over.
3 new ones were added.

How many cups are standing now?
