## Word Problems

Name:.....

Date:.....

You need to solve two steps to answer each question. You might need to add or subtract.  
Write your final answer in the box.

There are **10** juice boxes. **3** are drunk  
and **4** more are brought.

**How many juice boxes are there now?**

A picnic blanket had **20** forks. Half were  
used. Then **6** were put back.

**How many forks are on the blanket  
now?**

The cooler had **40** drinks. **10** were taken  
out. **8** new drinks were added.

**How many drinks are in the cooler now?**
