## Two Steps to Solve!

Date:.....

Direction: Read the word problem carefully.  
Solve it in two steps. Write your final answer in the box

Jake collected **50** seashells. He gave **15** to his friend and then found **20** more at the beach.

**How many seashells does Jake have now?**

Lara baked **36** cupcakes. Her mom baked **24** more. Then they gave away **30** cupcakes to friends.

**How many cupcakes do they have left?**
