## Word Problems

Name:.....

Date:.....

You need to solve two steps to answer each question. You might need to add or subtract.  
Write your final answer in the box.

There are **10** students in class. **5** more arrive and **2** go home.

**How many students are in class now?**

**12** crayons are on the table. **4** more are added, but **6** are broken.

**How many crayons are still usable?**

A shelf has **20** books. Half fall down. The teacher puts **5** back.

**How many books are on the shelf now?**
