Two Steps to Solve!

Date:.....

Direction: Read the word problem carefully.
Solve it in two steps. Write your final answer in the box

Caleb had **25** crayons.

He lost **5** at school, then bought **10** new ones.

How many crayons does he have now?

Fiona read **30** pages yesterday.

She read **20** more today, but **10** of the pages were repeated.

How many new pages did she read in total?
